

More **coverage**. More **confidence**.

An enhanced Natrelle® ConfidencePlus™ Warranty Program

The Natrelle® ConfidencePlus™ Warranty Program offers **more** coverage for breast implants—designed for added peace of mind and patient satisfaction

Applicable as of May 1, 2019.
For patients who received Natrelle® implants after January 1, 2019.
Actual patient. Individual results may vary.

Our enhanced warranty options feature:

- **Complimentary breast implant replacement** in the event of capsular contracture (Baker Grade III/IV; within 10 years), late seroma (within 5 years), BIA-ALCL diagnosis and rupture (lifetime)
- **Complimentary adverse events coverage** with financial assistance up to **\$3,500 USD** within 10 years for rupture and up to **\$7,500 USD** for a BIA-ALCL diagnosis

THE NATRELLE® CONFIDENCEPLUS™ WARRANTY PROGRAM:

	Rupture	Capsular contracture	Late seroma	BIA-ALCL†
Complimentary product replacement	Lifetime	10 years	5 years	Lifetime
Financial assistance*	Up to \$3,500 USD within 10 years			Up to \$7,500** USD
Enrolment fee	Automatic—there is no fee			

* Subject to review and approval by Allergan following submission of all required documentation.

† BIA-ALCL coverage applies to all Allergan breast implants, including Natrelle®, BRST® and CUI®. BIA-ALCL, breast implant-associated anaplastic large cell lymphoma.

** For confirmed BIA-ALCL cases diagnosed on/after January 1st, 2019 with a current history of Allergan devices.

Additional information about BIA-ALCL coverage for both gel and saline products

Patients with breast implants have a very small, but increased risk of developing **Breast Implant-Associated Anaplastic Large Cell Lymphoma (BIA-ALCL)**. In the unlikely event of a BIA-ALCL diagnosis, patients with Allergan implants are eligible for up to \$7,500 USD of out-of-pocket surgical cost assistance toward the removal of the breast implant(s) and the associated scar tissue (complete capsulectomy). Allergan will also provide replacement implant(s) at no charge. For coverage eligibility, surgeons are directed to contact Allergan and provide appropriate documentation.

As always, patient safety is Allergan's first priority.

We are working closely with leading surgeons worldwide to increase awareness of BIA-ALCL and the importance of early diagnosis. We will continue to work with the medical community to further the understanding of this uncommon disease.
